Embroidery of your own items

Thank you for asking me to embroider some of your own items. I hope that you will be satisfied with the result.

Please note that, while every care is taken with your goods, embroidery is a mechanical process and there is a very small chance of damage occurring to items being embroidered, although such occurrences are very rare indeed.

I can only embroider your own items on the strict understanding that such work is undertaken entirely at your own risk. If you have any doubts about this, please do not ask me to work on your goods.

If you would like me to explain this further, please do not hesitate to ask.

Legal Terms and Disclaimer

Customers supplying their own goods* for embroidery are advised that embroidery is a mechanical process and that there is a very small risk of damage to those goods. ABS Embroidery will only accept such goods on the strict understanding that:

- a. they are in a clean state and free of animal hairs and/or other impurities which might be hazardous to personnel or machinery.
- b. embroidery of such goods is undertaken entirely at the customer's own risk. To the fullest extent permitted at law neither ABS Embroidery nor any person employed by or connected with ABS Embroidery will be liable for damages of any kind. This is a comprehensive limitation of liability that applies to all damages of any kind, including (without limitation), compensatory, direct, indirect or consequential damages, loss of data, income or profit, of or damage to property and claims of third parties.
- c. For the purposes of these terms "own goods" means any item of textile intended for embroidery, which is the property of a third party and which was not supplied to the third party by ABS Embroidery.
- d. Submission of goods for embroidery indicates acceptance of these terms in full.
